**Experience** **Almohaseb Est.** - Frontend Developer Aug 2022 - Oct 2022

Worked on the development of Almohaseb One ERP system by maintaining and updating the codebase using TypeScript, ReactJS, and React-Strap. Added new features and improved user experience with Material UI, as well as redesigned the overall look of the project. Implemented routing functionality using React Router, worked with forms and created dynamic charts using Chart.js. Gained valuable experience in React development and popular libraries like Material-UI, Formik, and Yup. Utilized Docker to run the .NET APIs, was proud of my contributions to the project and had a great teamwork experience.

**Secunix** - Frontend Developer Sept 2021 - Mar 2022

Built an Advanced Web Security Scanner with real-time data, an Authentication system, and scheduled scans, built with NextJS, TailwindCSS, and React Hooks to proactively identify vulnerabilities in web applications.

---

**Projects** **EgyFaucet** - A real-time cryptocurrency affiliate program website using Firebase and JavaScript

Developed a real-time cryptocurrency affiliate program website using JavaScript and Firebase. Implemented user sign-up and login through referral links. Included an admin dashboard for managing users, ads, and withdrawal requests. Optimized for all devices and displayed user earnings in real-time.

**Cryptocurrency Tracker** - A NextJS app for analyzing real-time top 100 cryptocurrency market data

Designed and Built a NextJS cryptocurrency analysis app with real-time data and features like price tracking, market trends, and dealing with NextJS Data Fetching and Rendering methods. Showcased expertise in web development and ability to create a user-friendly and high-performing app.

---

**Production** Push to DEV then QA then STAGING and finally to PROD  
Also, PR needs Approval before merging.

Create something that the Junior can understand, he might have to sit and study a bit, but it must also be complex enough to function properly and scale.

**Education** Audited many CS and programming courses online and at Udemy and Youtube.  
Commercial High School Diploma - Specialized in business management. - 2020 - Current

---

**Technologies**

React	Firebase	Material UI
JavaScript	Express / MongoDB	HTML/CSS/SCSS
TypeScript	Node	Responsive Design
Next	Tailwind	Linux
React + TypeScript	Bootstrap	Git

**Languages**

Arabic - Native (Bilingual proficiency)  
English - A2 (Elementary)

**Traits & Beliefs**

Exceptional communication and networking skills  
Interested in Reverse Engineering and Assembly  
Teamwork makes the dream work
